

Maximiliano Montiel Argentina Visit

Last December 2004, black belt Maximiliano Montiel paid a visit to the Firmat city's Educational Center of Taekwon-Do, currently managed by its principal 6th Degree Sabon-nim Rodolfo Samara from Rosario, together with vice-principal 4th Degree Mario Saccheto from Firmat, both from Santa Fe City.

These school is where Maximiliano started practising TaeKwon-Do. For that reason, on the previous 18th of December 2004 a warm welcome was made to their former pupil now living in Spain, and he was presented with a commemorative plaque for his sacrifice and will-power in TaeKwon-Do. Furthermore, the Educational Center for TaeKwon-Do didn't forget Spain's International TaeKwon-Do Federation role and, on behalf of FITE's president and 5th Degree Sabon-nim Carlos Martin Requejo, Maximiliano received an award in recognition of him being greatly welcome to the Spanish federation. He left the school full of expectations, seeking his own future in a new team, a team he has undoubtedly found in the FITE.

Following such event, student Maximiliano was invited to test the students from the Educational Center for TaeKwon-Do. Shortly after, a formal dinner took place, where the main subject was of course TaeKwon-Do.

After a fair amount of chatting among important figures in Argentinian Taekwon-Do, like 7th Degree Masters, it should be mentioned how strongly they pointed Spain's International TaeKwon-Do Federation's policy out in every respect, and of course the National Congress, which, in those Masters' view, is something necessary and unfortunately not all the countries are that closely united as the FITE actually is.
