

Word TKD Championships South Korea

CARLOS MARTIN: 06.15 hs in the morning we began with breakfast in the hotel with the rest of the delegations. The organization's buses transferred us to the Kotrex Stadium to begin with the competition. The first one in the square was Alejandro Veyssiere in -63kg with the opponent of

Ireland. The fight was very intense, maybe the lack of experience of the center referee produced some complicated situation for us due to the hard contact. After the two assaults the result could not be good for us and we lost the fight.

In the afternoon Mariano Molina had his chance against Argentinian competitor; the first assault was for us but in the second round the most experience of the South American, changed the match to him.

Cristian Oriolani was the third in the square; after winning the opponents from

Malaysia, USA, and Italy he arrived to semi final against United Kingdom, he was lightly but astute to be taken the encounter. The first bronze medal for Spain in the champs.

I have concluded the day congratulating the good work carried out by all the individual competitors. Tomorrow we continue with individual and team patterns.
